FOUR HOUSES IN ASHES.

The Prompt Response of The Fire Company Saved Others.

HOUSES WERE NOT INSURED.

The Loss Will Be Comparatively Small but There was no Insurance. Poor People will feel the Loss.

At two o'clock the alarm of fire was turned in from box 52 and the fire company responded promptly. Dense clouds of smoke rising in West Greensboro showed the scene of the fire.

The reporter reached the scene at the same time with the fire company and found three small houses on Whittington street, about fifty yards from Lewis street, in flames. One of the houses was already nearly in ashes and the others burning rapidly.

The fire started in a house occupied by Aaron McCoy. The house on one side was occupied by Wilson Sloan and on the other by Walter Banks. Both were completely destroyed. All three houses belonged to Wilson Sloan. There was no insurance at all on the houses.

Across the street from the three houses stood a small house occupied by Henrietta Gilmer. This caught fire and burned despite the efforts of the firemen to save it. It was surrounded by large cedars which hindered the men in their attempts to get water on it.

The hose company had to reel off about 2,000 feet of hose before the fire could be reached. This of course diminished the water pressure, which Chief Stone reported was very satisfactory.

The buildings were all light frame structures, except the one occupied by Sloan, which was of logs, weatherboarded and they burned like tinder. There was not the slightest chance for the company to have saved any of them.

The spectacle among the poor dummies who owned the houses was pitiable. One woman had to be taken away from the scene by two men and went weeping hysterically. All she had was burned in the house. The women who were her neighbors were crying in sympathy and terror.

One of the women whose house was burned does laundry work and a large quantity of clothing belonging to white people was destroyed. She seemed greatly distressed at this, apparently thinking her patrons would hold her to account.

A quantity of household stuff was piled up in the streets and gardens near by but as is usual in such cases the most worthless things were saved.

Dave Gilmer was overcome while fighting the fire and had to be hauled up town in a wagon. He will hardly suffer anything more than a few hours lay-out.

The loss was small, but falls heavily on the poor dummies who lost all their belongings in the fire. The winter is near at hand and it would be well for the white people to help the sufferers. They can be recompensed for their losses without the people who help them missing what is given. Some of our charitable people should take the matter in hand.

The fire originated between the roof and ceiling of McCoy's house from a terra cotta flue.

The negroes in that part of town have wanted a hose wagon for some time. It would be well for the water committee to investigate and see if additional water plugs could not be placed there to advantage.

Blockade Still Captured.

A special from Raleigh to the Wilmington Messenger gives the following account of a unique capture:

Revenue officers made a lively raid in Edgecombe county near Battleboro today, and captured an illicit still in a remarkable location. It was in the middle of an immense reed swamp into which it had been brought on a boat. A preacher was the guide of the revenue officers and led them very carefully to the exact place. The moon-shiners fled.

STATEMENT FROM MR. MICHAUX.

He Gives His Version of "If It Were Possible."

MR. EDITOR:—I have read with interest the dissertation by Mr. Petty, Manager of the Guilford College Football Team, regarding the recent game between that team and the Greensboro team, and the games he would have played and won "had it not been" for the faculty.

In that connection I would remind him that it is much easier to write a five line gush of foolishness in a newspaper than to make a five yard rush through the line of a football team. The Greensboro team prefers to contest for football supremacy upon the football field rather than through the columns of a newspaper, and is willing to allow our friends to improve their score, if they can.

I attended the fair in Winston last Wednesday and while there attempted to arrange a game with the Winston team. The captain, Mr. Bailey, informed me that his team had been disbanded for several weeks. He then asked me why we did not play Guilford College in Winston. He stated that his team had gotten a letter, on the Saturday before, asking for a game on Saturday the 6th of Nov.

If our friends can draw any comfort out of the above they are perfectly welcome to it. Yours very truly,
JOHN A. MICHAUX,
Manager Greensboro Team.

Their New Quarters.

We congratulate our friends, W. G. Mebane & Co., on their handsome new quarters, the Doggett building, into which they will begin moving in a day or two.

The building was built and arranged to order and is admirably suited for the business of this enterprising firm. Besides the convenient and suitable arrangement of the building the location is all that could be desired, being located right in the heart of the traffic center of the city.

The business offices which are in center of the building on the front between the two entrances, are being finished in oil, and are very conveniently arranged.

This firm has already established a good business, and we predict for them a still more prosperous career in their new and handsome business home.

Consumption Among Negroes.

Dr. Scruggs, colored, of Raleigh, gives the following interesting figures regarding consumption among the negroes: In one city in the south, the number of deaths from consumption in ten years was 3,119, of which 611 were white people and 2,508 were colored people, showing a death rate of about one of the former to three of the latter by population. The negroes in this country constitute less than one-tenth of the population, and at the same time nearly 40 per cent. of the mortality from consumption alone.

Football Game Friday.

The Greensboro eleven will play the Wilmington boys on the latter's grounds next Friday. The Messenger says of the game:

The Wilmington football team will play their first game of the season at Hilton park next Friday, November 12th, with the Greensboro Athletic Association's football team. The boys have been practicing faithfully for about a month and are now in fine trim and confident of victory, although the Greensboro team is one of the best in the State.

The Andree Relief Expedition.

Christiana, Nov. 6.—The steamer fitted out by the governor of Tromsø, under instructions from King Oscar, which has left Tromsø Island in search of Professor Andree, the missing aeronaut and his party, is the Victoria. She carries a crew of fifteen men and has on board Paul Bjornvig, the explorer. The Victoria is provisioned for eight months and will search Daumandsoeren, Advent bay, Cape Thorsden, Prince Karl Foreland possibly Danes Island, from which point Andree's balloon ascended in July last in his attempt to cross the arctic regions. On her return trip the Victoria will explore the southwest coast of Daumandsoeren.

Still Prospering.

The managers of the Southern Stock Mutual Insurance company report that its business was never better than at present. Speaking of the insurance rate war the Insurance Herald says:

"The action which association companies are taking against the Southern Stock-Mutual in North Carolina, seems to us to be unwise. If organized rate-cutting against a small mutual company should succeed in driving it out of existence, the result would be one of the worst things that could happen to association companies."

WORK OF AN INCENDIARY

The San Morco Hotel at St. Augustine Burned

BENJAMIN BUTTERWORTH BETTER

Five Hundred Cloak Makers Go On A Strike and The Brotherhood of Tailors Flay Strike.

By Wire to THE TELEGRAM.

St. Augustine Nov. 8.—There continues to be no clue to the incendiary who yesterday set fire to the San Morco hotel, one of the largest hotels in the city. The hotel was burned to the ground entailing a loss of two hundred and fifty thousand dollars. The whole amount of insurance on the building was less than fifty thousand dollars.

CONDITION OF MR. BUTTERWORTH.

Cleveland, Ohio, Nov. 8.—The condition of Benjamin Butterworth, commissioner of patents, is slightly improved today. His son arrived here this morning, but the father was unable to recognize him. Dr. Kent announced that the patient passed a comfortable night.

HANNA'S TRIP POSTPONED.

Cleveland, O., Nov. 8.—Marcus A. Hanna has postponed his proposed trip to New York until the recovery of Butterworth.

BIG STRIKE IMPENDING.

New York, Nov. 8.—Five hundred more cloak makers went on strike this morning. Meetings will be held by all the allied trades, including the Pressers Union and the Brotherhood of Tailors and Coat Presses to discuss and determine upon the advisability of a general sympathetic strike.

Thus far the strike has been attended by practically no disorder.

LOSING CONFIDENCE IN BLANCO.

The Trial of the Competitor Prisoners Postponed.

By Cable to THE TELEGRAM.

Havana, Nov. 8.—There is much excitement in political circles here due to an increasing lack of confidence in the ability of Spain to establish an autonomous form of government in Cuba and to apprehension lest the Spanish troops should not be able to suppress the rebellion by force of arms. The feeling of uncertainty as to the future increases the business depression which has existed for more than two years. There is also a desire among a part of the population for annexation to the United States.

The second trial by court martial of the crew of the American schooner Competitor, of Key West, Florida, has been postponed owing to the illness of the president of the court.

COVERED BY INSURANCE.

A Hundred and Fifty Thousand Blaze at Louisville.

By Wire to THE TELEGRAM.

Louisville, Ky., Nov. 8.—A fire here this morning resulted in damage to the extent of one hundred and fifty thousand dollars in the wholesale business district, on Main street between Sixth and Seventh.

The principal losers are Bareford & Lawson, wholesale millinery dealers; Benjamin S. Weller, wholesale dealers in boots, shoes and stocks. Many adjoining buildings were considerably damaged by water and smoke. Loss fully covered by insurance.

The Revolution Over.

Washington, Nov. 7.—Mr. Pringle, charged d'affaires ad interim at Guatemala, reports that the revolution there is practically ended and the revolutionists are retreating over the border into Honduras. The government is paying the troops as fast as they come in.

The handsome car which is to go into thirty or more States to advertise North Carolina, will arrive in Raleigh Wednesday from the shops at Wilmington, Delaware, so the exhibits can be placed in it.

FAYETTEVILLE FACTS.

The Gospel Wagon and The Fakirs Both There.

Fayetteville, N. C. Nov. 8.—Fayetteville has had many religious opportunities during the past month. The last week in Sept. Rev. L. L. Nash D. D., of the Hay street Methodist church, began a meeting in his church and for three weeks labored hard for the salvation of souls. A few days before he closed Rev. Dr. Drew, of Virginia, began a meeting in the Presbyterian church, aiding pastors McKelway and Graham. For nearly two weeks he preached with great ability and delighted his people greatly. At the close of this meeting Rev. Furman H. Martin, of Norfolk, Va., came to assist pastor Thomas in the Baptist church and for 10 days he labored hard to lead men to Christ and build up the Christians. Mr. Martin laid bare sins and spared none of the vices of the people. On drinking, dancing, and card playing, he was very severe. There were twenty-three professions in this meeting. During the month Dick Morse was also here. His wagon attracted some attention and the preacher laid hard blows on the dispensary. Dick Morse does a good work along the line of temperance, but he sometimes errs in his statements and fails to accomplish much religiously because some of his declarations are not accurate. He never forgets to belabor Greensboro for putting him in jail, usually declaring it was for preaching the gospel.

Fair week with its fakirs and fools is upon us. The old proverb, "a fool and his money soon parted" will be abundantly illustrated during the next few days.

More cotton has been sold in this town than for a year or two, but now that prices are so low not a great deal is being sold. The farmers are despondent over prices, but some believe that they will advance after a little while.

A CARLISLE INDIAN DEAD.

A Brother of the Noted Seneca Indian Half-Back.

By Wire to THE TELEGRAM.

Harrisburg, Nov. 8.—Victor Seneca aged 19, of the Seneca tribe of New York state, struck his head in some way between Philadelphia and Paoli Saturday night, while returning with the Carlisle football team from the University of Pennsylvania where the Indians played a game.

He died at the Carlisle Indian school last night without having regained consciousness. He was a brother of Alfred Seneca, the Carlisle Indians noted half back, and his parents reside at Seneca Falls, N. Y.

He has been in the Carlisle school since 1895 and was very popular.

MADAGASCAR IN REBELLION.

The French Control to be Maintained By Force of Arms.

By Cable to THE TELEGRAM.

London, Nov. 8.—A dispatch from Paris says alarming information has been received there. News has reached the French colonial office that large bands of well armed and disciplined rebels are scouring the island and cutting off isolated French detachments.

To Prevent Cheap Labor.

By Wire to THE TELEGRAM.

Chicago, Nov. 8.—As a result of the conference between Secretary McHugh, of the Stone Cutters' Union, and the heads of the Central labor bodies, they have decided to formulate a demand that organized labor get all contracts of stone work for postoffices which aggregate a million and a quarter of dollars. All work to be done in Chicago to prevent outside cheap labor.

Presidential Appointments.

By Wire to THE TELEGRAM.

Washington, Nov. 8.—The President today made the following appointments: W. Godfrey Hunter, of Kentucky to be Envoy Extraordinary and Minister Plenipotentiary to Guatemala and Honduras.

Collectors of internal revenue: James Wood, district of New Hampshire; Edward T. Franks, second district of Kentucky.

Durrant Must Hang.

By wire to THE TELEGRAM.

San Francisco, Nov. 8.—The United States Supreme court has denied the appeal of Theodore Durrant, of San Francisco, who was convicted of the murder of Blanche Lamont. The court affirmed the decision of the Supreme court of California and Durrant must hang.

All the families save one have been removed from the penitentiary in accordance with the recent order of the directors. Four families were living in the prison.

MARTIN THORN ON TRIAL.

The Jury of Guldensuppe's Slayer Being Empanelled.

SHARPENING A KNIFE FOR HANNA

Foraker and Kurtz in Conference And The Result Will Be a Fight in Ohio When Legislature Meets.

By Wire to THE TELEGRAM.

Long Island City, Nov. 8.—The trial of Martin Thorn who is charged along with Mrs. Mrs. Nack, with having murdered Guldensuppe, a Turkish bath attendant, and afterward attempting to conceal the crime by cutting off the head of the victim, began here this morning. The case has attracted a great deal of attention throughout the country, has been twice postponed and promises to be one of the most famous murder trials the East has ever had. Witnesses have been brought from Europe to testify. Two hundred men have been summoned from whom the jury will be selected and it is expected that it will be several days before the jury will be empanelled.

THE CASE AGAINST HANNA.

Cincinnati, Nov. 8.—Charles L. Kurtz quietly slipped into the city yesterday and conferred with Senator Foraker with reference to the election of a senator by the next Ohio legislature. It is reported that Senator Kurtz has carefully considered the situation and has reached conclusion unfavorable to the aspirations of Mr. Hanna.

JOSEPH KELLEY ON TRIAL.

By Wire to THE TELEGRAM.

Dover, N. H., Nov. 8.—The trial of Joseph Kelley for the murder of Joseph Stickney, the cashier of the Great Falls National Bank at Somersworth began today. The state has eighty witnesses and the defense fifty and the trial will be long and hotly contested. Kelly still maintains that he is sane and is greatly worried over the likelihood of his counsel proving that he is insane.

MONDAY, NOV. 8, 1897.

You can get the telegraphic news twelve hours earlier in THE TELEGRAM than in any paper that gets into Greensboro, and for four dollars a year less.

THE TELEGRAM enlarges today to seven columns, in order that its advertising columns may not encroach upon its reading space. The indulgence of patrons is asked while the re-arrangement and re-adjustment necessitated by the change are being made.

If Seth Low had been elected Mayor of New York he would have been an independent patriot; as it is he is only a mugwump.

Judged by results, Thomas Platt probably regards the \$2,500 invested in a speech by Bourke Cochran as very poorly laid out.

It is evident that some 30,000 of the 130,000 voters who signed the petition asking Seth Low to run played a cruel practical joke upon the unsuspecting academicians.

Hannik Taylor, ex-minister to Spain, is now engaged in convincing the public, with the aid of the Associated Press, that his mouth has not gone off inopportunities.

The talk of war with Spain is said to have a very depressing effect in Wall street. Pray let the matter be speedily and amicably settled. Such hardship is not to be thought of.

Asheville is to have more than her share of the nabobs. Vanderbilt and Pearson she has all the time and now Richard Croker is going there to recuperate. She should divide honors.

The Tobacco Fair and Industrial number of our esteemed contemporary the Winston Sentinel, is most creditable to that excellent newspaper. It is worthy of the paper, the town and the Fair.

Father Worth should not have been exposed to the cold mercy of the Tobacco Fair pick pockets any way. There were bunco steers there too. Suppose the Father had bought a gold brick.

The New York Journal supported Van Wyck protesting that if he was elected it would kick Croker down the Tammany back stairs. The Journal should not get stuck up over that rescue. When it undertakes to redeem that campaign pledge there will be such gaiety as the big village has not seen in many a day.

The Austrian Reichsrath has been showing the world that Ohio Populists are not the only folks who know how to break heads. Here is a fertile topic for those foreign journals that have been wont to decant by the columns on lack of dignity in the American congress and the sledge hammer methods of American diplomacy. Austria is one of the oldest of the powers and Vienna one of the most cultured of European capitals, yet her chief legislative body has not gotten beyond the head-breaking stage of argumentation. There is a delightful touch of irony in Mark Twain's being a spectator of the melee and saying it was like a western hanging bee. America will have to give Europe lessons in official manners yet.

The colored brother all over the State is loud in his protests against the bill of fare. It is the super-abundance of shoulder served cold and the almost total absence of pie that is rousing his patriotic wrath.

The New York Chamber of Commerce is nervously begging the government to increase the coast defences of that city. It is safe to prophesy that the only way a Spanish shell could harm one of those valorous gentlemen in case of war would be by carrying a full thousand miles into the interior. Still there are others less fleet of foot and the defences should be adequate.

The Canadian authorities are much wrought up over the action of United States officials in deciding upon the way in which Yukon names shall be spelled without consulting them. They did not like it when it was decided that the old warship Yantic should be put on the Great Lakes, but when Washington geographers said the name must be spelled "Klondike" instead of "Thronduick," "My Lady of the Snows" kicked like a ballet actress. So a special board is to be appointed to sit gravely on the orthography of places in the new Eldorado.

GUILFORD COLLEGE.

Christian Endeavor Meeting—Coming Entertainment—Other Notes.

A TELEGRAM representative drove out to Guilford College yesterday afternoon and had the pleasure of attending the Christian Endeavor meeting last night. It was a service of prayer for the State Union. The order of exercises was as follows:

Song service and responsive reading, followed by all repeating The Endeavor Pledge: Chain of Sentence Prayers and Hymn.

The secretary read letters of greetings from Rev. A. D. Thaler, of Winston, state president, and Mrs. Mary H. Hendricks, of Salem, state treasurer.

Prof. White gave an address on "Spirituality or Machinery, Which?" which was both interesting and instructive.

Miss Robertson also read an interesting paper on "Personal Responsibility for Souls," following by the State Song, composed by Mrs. A. D. Thaler, of Winston.

Other interesting addresses were delivered by different members of the society on "The Pledge, Why and What?" etc.

A collection was taken at the close, the proceeds of which will be applied to the furtherance of the work in the state.

This society has a large membership and is in a very flourishing condition, doing a good work in and out of the college.

The home Sunday school will shortly present "The Last Loaf," a temperance selection. A small admission fee will be charged, which will go to the Sunday school library fund. A cordial invitation is extended to the people of Greensboro to be present.

Science Hall, a beautiful brick structure, is nearing completion. If finished in time "The Last Loaf" will be given in this building.

Members of the college football team still maintain that they could again "swipe" Greensboro off "the earth" "if" the faculty would permit their meeting once more.

Guilford College, which is one of the best institutions of learning in the state, has a large enrollment and is progressing nicely, which is no more than the efficient management deserve. THE TELEGRAM is glad to note this growth on the part of the school attendance, as well as the many other improvements around the old college and campus.

We return thanks to the college boys for leaving the axle grease of our buggy undisturbed during its brief stop in their midst. With a polite "Good Morning John!" we bid you adieu, and will call again.

INDIANS WERE WISE.

REFORMERS SCORED A WINNING IN THE CHOCTAW ELECTION.

Hard Fighting at the Polls Between the Progressive Tushkahomas and the Unionists—Widespread Corruption of Voters. Red Men Are Great Wire Pullers.

The late election in the Choctaw Nation shows that the Choctaw tribe of Indians is the wisest of the five civilized tribes.

The election was held throughout the Choctaw Nation for national treasurer and members of the national council, and the result of the election shows how the Choctaw people feel toward treating with the United States.

In every county where there were straight Indians who understood the late agreement formulated between the commissions representing the Choctaw and Chickasaw nations and the Dawes commission the Tushkahoma ticket received a majority. The Tushkahoma party embraces those Choctaws who are in favor of treating with the United States and who want to have their own say so in settling their affairs and in determining how long they shall continue their present form of government—a government which they dearly love and cherish. For the past 65 years they have enjoyed all the rights of self government, a privilege which they have exercised as wisely as any of the adjoining states.

The Tushkahoma party was the first political organization of the Indian Territory that openly announced the dangers threatening the five civilized tribes, and in setting forth these dangers to the people it formed what was known as the Tushkahoma platform. This platform advocated an equal division of all the land and property. The party sent out its speakers among the people and showed them that they must change the tenure of the land, and instead of holding the land in common, as it is now done, that it should be and ultimately must be individualized. When it is taken into consideration how bitterly the Indians were opposed to a change and that heretofore it had been dangerous for an Indian to even speak in favor of any kind of a change, it appeared strange to see this Tushkahoma platform advocated openly among the people.

But the leaders of this party fearlessly discussed their platform and met their opponents sober, while the opposition were usually "tanked up" with whisky and used "bluff" instead of argument. The result was the Tushkahoma party elected its governor, while its opponents were lying around drunk. This happened one year ago. Those who are opposed to the agreement call themselves the Choctaw and Chickasaw Union party, and their intention was to defeat the agreement if they secured a majority of the representatives. They made a desperate effort to secure this majority. Where there were negroes they bought them in one way or another. In Towson, Red River, Kiamitia and Tebecky, where the negroes were in a majority, the Choctaw and Chickasaw Union party is said to have bought its votes outright.

While the result of this election is still in doubt, yet from the way in which the Union party bought negro voters it would seem that it will elect its candidate. The salary of the national treasurer is but \$600 per annum, and as it has, it is said, spent several times this amount to elect its candidate for that office, it is but natural that people should suspect its motives. The Tushkahoma party had no campaign fund, but ran the campaign strictly on its merits, and it has the satisfaction of knowing it has secured a majority of council members despite the "shush" funds used by the opposition, and is yet in a position to protect the Choctaw people from a party whose motto is "Rule or Ruin."

The administration at Washington should lend every possible aid and encouragement to the party which advocates an end to tribal government—the party which made it possible for the Dawes commission to conclude an agreement with the Choctaws and Chickasaws, the only agreement yet concluded with the five civilized tribes.—Kansas City Times.

A Bible For Japan's Emperor. The American Bible society announces that a large folio Bible in the English language has been specially prepared as a gift to the emperor of Japan and sent to Yokohama. It will be formally presented at the first fitting opportunity after the emperor's return to Tokyo in the autumn. The gift will be made in the name of the American Bible society, the British and Foreign Bible society and the National Bible society of Scotland, which are jointly concerned in the publication and distribution of the Japanese Scriptures. The two agents, the Rev. Henry Loomis and George Braithwaite of Yokohama are to make all the necessary arrangements, including the preparation of a suitable letter to accompany the book. The preparation of this volume was suggested by the favorable reception which the dowager empress of China gave in 1894 when a beautiful Chinese New Testament was given to her in the name of 10,000 Protestant Christian women of China.—Exchange.

Short Tomato Crop.

Owing to the slump in the tomato crop throughout the country this season it is predicted by a number of prominent merchants and brokers that within the next three or four weeks the canned tomato, which today is selling for 80 cents per dozen cans, will have reached, if not passed, the dollar mark. There is only one-half the crop that there was last year, and as a result the big canneries throughout New Jersey, Delaware and Maryland are refusing to place this commodity on the market.—Philadelphia Press.

Speeding Work on War Ships.

New York, November 6.—Work on all war ships at the Brooklyn navy yard is being pushed forward as rapidly as possible under orders from the Navy Department. One attaché today volunteered that "Spain's naval activities have nothing to do with our industry. We always finish work here as rapidly as we can."

An officer attached to the office of the commandant said that he believed some sort of an order had been received to urge the completion of the two new vessels which are making preparations for their final trials. These vessels are the torpedo boat, Foote, and the big battleship, Iowa, the heaviest in our navy. The Iowa's trial will probably be next Thursday, and the Foote's the following week. The Newport, a composite gunboat, with Admiral Walker and the Canal Commission.

Notes of Interest.

Dr. Hills, of Manchester, Ky., at 70 years of age, rode in a pacing race at Barboursville the other day and won it.

One million and a half of men work in the coal mines of the world. Of these Great Britain has 535,000, United States 300,000, Germany 285,000, Belgium 100,000, Russia 44,000. The world's miners of metal number 4,000,000.

Census figures recently published at Washington show that average longevity has made a perceptible advance even in the last ten years, and people live twice as fast as they used to, the sum total of life being very much longer and richer than formerly.

When a Manchester, Eng., timber merchant was saving a sycamore into lengths he came across a dark knot in the wood an inch and a half in diameter. When this was cut through it displayed the clearly marked outline of a bird.

New Phosphate Mine.

The Wilmington Messenger says: Mr. W. H. Shearin, of Castle Haynes, informs us that a new discovery of phosphate has been made on the state farm at Castle Haynes. The mines on one part of the place have been worked for years, but the deposit that has just been discovered is right on the Holly Shelter road, and near the Wilmington and Weldon railroad. Fourteen pits have been cut down on the deposit, and Mr. Shearin tells us that underneath a stratum of shell rock there is a free deposit of pebble phosphate from three to four feet thick. He says the deposit is so free that the phosphate can be shoveled like so many peas. It is said that the grade is higher than the phosphate in the old mines.

A Change of Date.

The members of the Woman's Christian Temperance Union will please meet at the usual place on Wednesday instead of Thursday afternoon at 3:30 o'clock. A full attendance is desired.

The Reforms for Cuba.

Madrid, Nov. 7.—The cabinet has approved measures for the giving to the inhabitants of the islands of Cuba and Porto Rico the same constitutional rights as are enjoyed by Spaniards for the bestowal of the right of suffrage upon all who have attained the age of 25 years, and for the same census basis in municipal, provincial and parliamentary elections. The Chambers of the islands will be permitted to modify the scheme if they shall deem it advisable.

Autumn Gladness.

They're here again—the times of joy,
Of which the poets carol,
When man less closely may employ
His mind with his apparel!

If he a top coat wears, to which
A flower lends its splendors,
Who shall suspect him, though he
Hitch
With hairpins his suspenders!

When we advertise that we will guarantee Dr. King's New Discovery, Electric Bitters, Bucklen's Arnica Salve, or Dr. King's New Life Pills, it means that we are authorized by the proprietors to sell these remedies on a positive guarantee, that if purchaser is not satisfied with results, we will refund the purchase price. KLONDIKE IS A FAD.

THE WORD HAS TAKEN A PROMINENT PLACE IN CURRENT SLANG.

Hats, Hotels, Songs, Cigars and Children Now Wear the Magic Title of the New Goldfield—Advertising Dodges That Hide Behind the Name.

The name "Klondike" comes trippingly to the tongue. It has caught the public ear, has become firmly entrenched in the vernacular of the day and will no doubt attain the universality of use that followed the introduction of "Trilby."

Any piece of good luck is called a Klondike strike. A prosperous venture is a Klondike. "He is right in Klondike" has succeeded the expression of "He lives on Easy street."

The Klondike neckties, Klondike hats and Klondike cigars have appeared on the market. A New York hotel has been christened the Klondike in all the glory of newly painted signs.

The Klondike restaurant has risen from the greasy ashes of the one time "Trilby." Cards in windows announce the first annual excursion and moonlight hop of the Klondike Social circle.

A suburban real estate corporation has given the name of Klondike Heights to some flat land on the outskirts of Brooklyn.

There is a Klondike cafe on East Fourteenth street, New York.

Klondike" farces and sketches are featured on the bills of the continuous performance houses, and all the traveling vaudeville shows and burlesque companies have given Klondike a prominent position on their wall paper.

The Klondike cocktail has made its appearance in a dozen first class bars down town. It is made preferably of gin, with vermouth and orange bitters—really on the lines of the Martini, but the "Klondike suggestion" is given by a floating piece of lemon or orange peel cut into a disk and just the size of a \$20 goldpiece.

Street fakirs are selling the Klondike puzzle. It is a new form of the many puzzles, or, really, tests of nerves and patience by which a little ball is made to roll into a certain compartment. In the new puzzle the play is to "get the nugget into the pocket." The trick can be done, but it is almost as exasperating as the pigs in clover device which nearly upset the minds of the nation a few years ago.

The music publishers are early in the field with Klondike marches, waltzes, schottishes and gavots. The comic song writer has seized his opportunity with a catchy refrain about being off to Klondike in the morning, and the pathetic ballad writer has already got in his work with the story of the mother who fondly waits for her darling boy's return, while "the stars their watches keep over the snow clad, lonely grave upon the Klon-dike."

With the registration of yearling colts next spring there will be a scramble for the name of Klondike.

More than one druggist has hung on the outer wall the announcement of Klondike soda water, which, of course, is a claim for its extreme frigidity. The Klondike ice cream freezer will come and the Klondike arctic overshoe.

Many unfortunate and helpless children will be christened Klondike, and the man who has been going through life as John K. Jones will declare that his middle name is and always has been Klondike.

A fashionable dealer in furs has made a hit by dressing up a show window as an arctic landscape, in the foreground of which are a male and female figure elaborately clad in the complete fur costumes that are worn in the arctic regions.

Other dealers attract the attention of passersby to their windows by photographs of Klondike scenes, and a jeweler has a crowd all the time before the window, in which is heaped a little pile of golden nuggets labeled, "Fresh from the Klondike."—New York Journal.

ODDS AND ENDS.

A Chinese paper estimates that the victims of the plague in Fuchau this year will not fall far short of 40,000.

A Tampa (Fla.) barber has invented a portable shampooing basin for which he has refused \$6,000.

American iron and steel are selling in England, American plates in Wales and now American butter is sold in Australia.

Traffic has been interrupted on the Great Indian Peninsular railway owing to the fall of an immense mass of rock at Bhore Ghant from a height of 250 feet above the line.

A woman of 97, now living in the south, recently had a proposal of marriage.

Cigarette smoking is on the increase in Japan. Every month 13,000,000 imported and 52,000,000 native cigarettes are consumed.

Nearly 800 ministers applied to the federal government for appointment to a single vacancy as army chaplain that recently occurred.

The Chinese government has ordered from a Prussian builder four torpedo boats of 6,000 horsepower and a speed of 32 knots. They are to be completed within 12 months.

Pilgrims to the shrine of Maria Radna, at Temesvar, in Hungary, have received permission from the bishop to make the journey on bicycles.

Seattle, out in the state of Washington, is profiting by the Alaskan gold excitement, and its citizens fully expect that it will have a population of 100,000 people by the end of 1898.

Are You Subject to Attacks of

COLIC?

If So, There is No Need to Suffer.

Mrs. Joe Person's Remedy

WILL CURE YOU

For several years I had been subject to severe attacks of cramp colic. Sometimes they would last me an hour and hardly a week passed that I did not have several attacks. I tried everything that was suggested, but found no relief. During these attacks the muscles of the arm and leg were terribly drawn and the whole body was cramped. I was advised to try Mrs. Joe Person's Remedy, which gave me relief at once, but not until I had taken two dozen bottles, was I entirely cured. It was eight years ago since I took the remedy, and I have not had a touch of the trouble since.

"The Burglar" Tonight.

The four-act comedy "The Burglar" will be given at the Academy of Music tonight. The play as given in Danville made so decided a hit that the company has been asked to repeat the performance tomorrow night. This is a very high testimonial to the play and those who attend here will doubtless find it very entertaining.

AMUSEMENTS.

"The Burglar" at The Academy of Music Tonight.

There is no more hazardous experiment in dramatic writing than to attempt to expand a mere sketch into a full-grown play.

"Editha's Burglar" was a delightful little one-act play, but there did not seem to be enough of it to warrant the development into a drama of regulation length. But Mr. Thomas revealed an unexpected skill, and "The Burglar" has proven one of the notable successes of the past few seasons. One reason for its continued popularity is to be found in the fact that the leading parts have been in such unusually capable hands. At the Academy of Music tonight. adv

A Narrow Escape.

Mrs. Jesse Stevens had a narrow escape from serious injury this morning. She was out riding houseback and when crossing the railroad on South Elm the escaping steam from a locomotive in the turn-table yard frightened the horse and he began rearing up, the saddle in some way became loosened and slipped off. Policeman Pearce was standing near and caught the frightened horse just as the lady fell, otherwise there might have resulted serious injury.

A Prediction.

THE TELEGRAM ventures the prediction that it will not be very long before the Southern will build a handsome new passenger depot in this city. Don't believe it is too good to be true, but simply wait. The city is growing, the business of the Southern here is immense, the city and the traveling people deserve better depot accommodations and we believe they will get it.

A Klondike at Your Door.

WATTERSON ON LINCOLN.

He Will Lecture at the Normal College Saturday Night.

Every one who heard Henry Watterson, a year ago, on "Money and Morals," knows his power as an orator, and it was because of his high rank as such that he was selected to deliver the address in Chicago on Lincoln's birthday, when he carried his audience with him in perhaps the most eloquent discussion of a great man the country ever heard. * * * This soldier, editor, statesman and orator delivered his eulogistic lecture on Abraham Lincoln, last evening, at the People's Church, before a splendid audience, upon which he made a deep impression. The eulogy was worthy of the theme. Col. Watterson was fervid, impressive, convincing, the crowning attraction of his effort being earnestness of conviction in all he so eloquently expressed. —Pioneer Press, St. Paul, Minn., March 5, 1895.

"Where Thine Honor Dwelleth"

Dr. L. W. Crawford filled Dr. Weaver's pulpit at West Market street church yesterday. He preached from the text: "Lord I have loved the habitation of thy house and the place where thy honor dwelleth." Dr. Crawford's powers as a pulpit orator are well known and he sustained his reputation ably. The description of the Jewish temple was classic in beauty while the discourse throughout was chaste, ornate and forceful, betraying the polished scholar and the close and observant thinker.

The Home of Fashion.

Men of fashion find our stock replete with noblest importations. Clothes are the outward expression of your taste. "Costly thy habit as thy purse can buy, but not expressed in fancy; rich—not gaudy, for the apparel of proclaims the man." The truth is always the strongest argument. Pleasing our patrons makes life pleasant for us.

A Good Combination:

WEAR The looks of clothing may be a temporary availment, but if good service be not with them, they'll never please you.

FIT A poor fitting garment, no matter how the material, should not be worn by an up-to-date dresser.

STYLE A suit needs this to catch the eye and aid you in appearance.

PRICE Uniting the foregoing elements in clothing to sell at prices to suit the times is just exactly what we are doing.

A Taste of Winter.

Soon you will need something heavier in the furnishing line. Remember that while summer was here we were looking after your wants. All you have to do is to come see how well we have provided for you. Witchwork.

Those who come to us for Fall Shoes sometimes think it must be witchwork that makes it possible for us to fit them so quickly, perfectly and cheaply. Not a bit of it. It's not witchwork, but hard work, that does it.

While you were fishing and loafing and resting this summer, we were at work to get this stock in shape—which work is what worked the witchwork.

For Example:

We are offering this week: Ladies' Vici Kid, hand sewed button shoes, London toe, patent tip, B, C, D and E width, at \$3.50, worth \$5.00.

Ladies' cloth top button or lace shoes, patent tip, com. toe, C, D and E widths, sizes 1 to 7, at \$2.50. This shoe would be cheap at \$3.50.

We have a full line of Felt Slippers for men and women.

SHRIER'S, 216 South Elm Street.

Also a nice line of American Lady Corsets
